Fall plowing for spring wheat and also customed to live in a new country, in the spring, answer equally as well for the N. O. Picayune, tells a story of a backplanting corn. We have found these of men and things, states that in one field whole sowed across the furrows and har-It was clearly to be seen throuh the seapart plowed in the fall was much more luxuriant than the other; and when it was harvested it was thought by him and other good judges to yield all of one third more: that upon the ground plowed in the fall upon the ground plowed in the spring turned out only 20 bushels to the acre.-Cor. Prairie Farmer.

DURABILITY OF TIMBER IN A WET STATE .- Of the durability of timber in a wet state, the piles of the bridge built by the Emperor Trajan across the Danube is one example. One of these piles was taken up and found to be petrified to the depth of three-quarters of an inch; but the rest of the wood was little different from its ordinary state, though it had been driven more than sixteen centuries:

The piles under the London bridge have been driven about six hundred years, and from Mr. Bann's observations in 1746, it does not appear that they were materially decayed. In 1819 they were sufficiently sound to support the massive superstructure; they are chiefly of elm.

In digging away the foundation of the old Savoy palace, London, which was built six hundred and fifty years ago, the whole of the piles, consisting of oak, elm, beach and chestnut, were found in a state of perfect soundness, as also was the planking which covered the pile heads. Star says:

MAGNETIC TELEGRAPH-Its Uses .-A few weeks since, in a New York paper, a case was related of a marriage ceremony having been performed through the medium of the telegraphic wires. A still more extraordinary use of the lightning line has been recently made, as we learn by an eastern paper. It appears that a young gentleman of Al-bany, N. Y., died in Buffalo, after an illness of only two days, but before he ex-Vepired he expressed a wish that his father and only sister should be sent for, together with the minister of the Dutch Re formed Church, of which he was a member. By means of the telegraph the dying wishes of the young man were communicated to his relatives, who made preparations for their departure for Buffalo by the evening rail road line. The Rev. Pastor of the church, who is nearly seventy years of age, was laboring under severe indisposition when the message

was received, in consequence of which such a journey as he was required to make was out of the question. A consultation was held among the friends of the deceased, and it was arranged that on the foltelegraph! Accordingly, soon after the duly notified that the service might comwith the minister at that end of the wires. The "services for the dead" were then

read by the aged divine, and were repeated by a young minister of the same denomination at Buffalo, as he received 20 Cases of Boots & Shees, comthem from the clerk of the telegraph line! -St. Louis Reveille.

A CREDIBLE WITNESS .- Two claimants for one dog lately appeared before a justice of the peace, in a town near Boston. Several witnesses swore positively to the ownership of each litigant, when the sagacious magistrate directed the plaintiff a slit in the left car. The above reward ed to him at Joliet, till., will meet with prompt to take his place on his right and the de- will be given for information of them difendant to occupy a corresponding posi-tion on the left; the dog in dispute being remaided to a distant part of the room. The parties were then communded to whistle, when the animal made for the defendanting of towlerer morligare.

"Mr .---," said the justice to the clerk trecord the decision- for the defendant; the dog is the only credible witness in the

You don't caich this particular individual being lost again in your doublyeiding 30 bushels to the acre, while that ing and twisting streets, any way you

THE HEALTH OF THE COUNTRY,-The present has been a season of unusual sickness in the west, more so perhaps than any other which has preceded it except the summer of 1838.

The diseases are of a billious character, for the most part of a lighter form, terminating in the chill fever. The attacks are more provoking than alarming, and more debilitating than dangerous. But few deaths occur comparatively speak-

We account for the prevalence of sick ness this season as in '38 by the extreme sultriness of the weather for a continued time, in fact during the whole of the summer. The smaller streams have dried up and the larger ones are very much diminished, thereby causing the decay of wegetable matter during the hot weather, and before it has been killed by the frost. -Chicago Jour.

Horse Cholera .- A singular and fatal disease among horses is prevailing in the vicinity of New York. The Brooklyn Hebrew Plaster. The name of the Jew David's

The horse distemper, or horse cholera, making such ravages in Kings, Queens, and Suffolk counties has increased to such to try them, and recommend them to their friends. an alarming extent that in the country towns scarcely anything else is talked of. The enquiry is of every person passing, "How many new cases to day?" On Tuesday we are informed, twenty horses died out of three villages, viz: Flatbush, Flatlands, and Gravesend: and not a day passes without hearing of a number of oth-

It is a disease so singular in its nature, that farriers do not know in what manner to attack it. Some think it originated in the head, a sort of brain fever; others in he throat; others a sort of inflamation of the stomach; and yet, when the horse is opened and examined, all parts seem per ectly natural, It is singular to observe with what rapidity this complaint has travelled. We believe it first broke out n Jamaica, next at New Lots, then at Gravesend, Flatsland, New Utrecht, Yelow Hook and Newton simultaneouslythen to Rockway, where it is now.

A Good Jone .- A well known physi cian in town is very much annoyed by an lowing day the minister should perform old lady who is always sure to accost him the funeral service of the deceased-by in the street, for the purpose of telling over her ailment. Once she met him in arrival of the father and sister at Boffalo, Broadway, and he was in a great hurry. the corpse was conveyed to the telegraph "Ah! I see you are quite feeble," said office, and the minister at Albany was the docter; "shut your eyes and show me your tongue." She obeyed, and the doctmence. Funeral invitations having been er, quietly moving off, left her standing circulated at Albany, a large concourse there in this rediculous position, to of mourning friends were in attendance the infinite amusement of all who witnessed this funny scene,

### JEW DAVID'S HEBREW PLASTER Honey Coated Pills.

The public have for a long time been acquaince percognition to go into an extended expens of its properties and truly wonderful effects upon the numan system. A few wreks since we published medicine that bids fair, to supercede almost all

The public have long called for a Sugar Coathave been so often imposed upon by some spurious article that is made of inferior qualities of min system; and by their being coated over, the impurities of the articles of which they are made are hid from the public, and thus the community have been deceived.

We know that the public have been appealed to times out of number, to test the wonderful virties of various Pilis. The Jaw David Honey Coated Pills, only claim a modest share of what is claimed by the most of the Piles of the day -We think that it is endeavoring to impose upo the good sease of the community to say that the Jew David's Pill, or any other pill with cure air the diseases that milici humanity-but we do say since the settlement of the country, if we that for Bilious diseases, Liver complaint, Costiveness, Bilious Cholic, Pain in the side and head, there is nothing bester that can be taken, hat will so soon remove the above difficulties .-And a pill that can be taken without offending the patient's stomach, is a consideration of much importance. These pills operate without consing any pain or graping, such as is experienced y the majority of pills.

The Jew David's Honey Coated Pills are nodification of the Persian or Resurrection Pills. The most valuable articles in the Persian Pills are retained in the Honey Coated Pills-ren dering them much more valuable, as well as palanable to the taste. Their value has been fairly and fully tested-and notwithstanding the high estimation which the Persian Pills justly boast, we confidently recommend the Honey Coated Pills to be equal with the Persian. The long expersence we have hid in dealing in the Persian Pills, has taught us that very few medicines can compete with them; but we do believe that if they ad been conted, they would have been more exensively introduced, and we would unhesitatingsay, that the public can place the same conlence in these pilly, as has always been place a the celebrated Persian Pills and Jew David's Honey Coated Pills has been given this article, that the people may be assured that it is no humong, and that all that are acquainted with the cel brated Jew David's Plaster may not hesitate

JOLIET, Ill., July 22d, 1846. Mr. E. Taylor :- The past three months, I ave used in my practice about ten dozen boxes of and promp t in his attention to business. His he "Persian Pills," and within the past three office nearly opposite the Eagle Tavern. veeks, several boxes of your "Jew David's Hon-Goated Pills," and Sclieve them both to be durirably adapted to the diseases of the Western ountry. I consider them a safe and efficient athartic, in cases where the object is to cleanse

ical qualities of these Pills, and leave it with the

public to ju 'ge. The first is one of our most em-

nent physicians, and well known throughou.

he system and purify the blood, In an extensive practice of more than twenty years. I never found a better pill to be used as a amily medicine, than the "Persian Pills" and he "Jew David's Honey Coated Fills," ain breerfully recommend them as such. Yours truly,

M. K. BROWNSON Albany, March 6, 1816. Mr. Taylor:-I have analyzed the Jew Da id's Honey Coated Pills, and have found the be composed of the most approved and valua ble articles in Materia Medica-and in all cases where I have known them tried, they have given perfect satisfaction.

D. GORDON, M. D. Attico, June 24, 1846. Mr. Taylor: - I have used your Jew David's Ioney Coated Pills, in my practice, with the apprest result, and can cheerfully recommend to the afflicted as the best pil's now in use N. S. WELLES, M. D.

Manufactured by E. TAYLOR, Rochester, NY., successor to Comstock & Co., and proprietor of the celebrated Jew David's Plaster. A neat and valuable pamphlet relating to the above medicines can be had gratis of the followng gentlemen who are the authorised agents for the sale of the genuine Hebrew Plaster, Persian Pills, and Jew David's Honey Coated Pills. Beware of counterfeits as they are about.

## DR. SPENCER'S VEGETABLE PILLS

And Vegetable Tonic and Restorative Bitters,

A RE acknowledged by the hundreds and thou sands who are using them, to be not only the most mild and pleasant in their operation, but the most perfectly innocent, safe, and efficient nedicines ever offered to the public. Those who is sufficient proof of their good qualities. In the South, where bilious disorders are so

medical art is practised, abroad as well as at used them, which might be given, but let the following from Judge Forrest, a gentleman of the grand field of their triumph, and though frequent first respectability, in Jefferson co., Ala. suffice. attempts have been made to supercede them, by persons whose experience should have restrained them from tampacing with human life, Spencer's pills remain as hereto ore, the popular medicine the south and we t. It seems, indeed, as if evw attempt at rivalsh a only served to enhance their remutation, to increase the vast domand which has compelled the proprietor to double the capacity of his establishment, in such t to alford the requisite supply. The science, nowever ignorance and capidity may assail its inventions, will carry the day at last; and for this rouser the medicines of Dr. Spencer being the result of philosophical research and universally acknowledged nedical skill, will traintain their position in the public favor, as long as disease exists, and health

is considered a blossing.
In all diseases of the liver, stomach, and intes tines, Spencer's pills and bitters are the only reli able preparation. They c'ense the system of its impurities, give strength and tone to all the ma-chinery of digestion, promots healthy secretions, purify the blood, cure dyspepsin and billious com-plaints of every form and character, and, as a mild yet rearching cathartic, these pills are admitted by the profession to have no competitor in he whole range of medical science.
